

PolyGuard Series Swing Panel Kit (SWPK-01)

A great option for our *PolyGuard™ Series* polycarbonate electrical enclosure is the SWPK-01 Swing Panel Kit. This kit allows you to mount your standard subpanel into the enclosure without any need to modify your subpanel. It mounts on any side of the enclosure as well. Simple and easy, just what you'd expect from Enclosure Solutions.

Features & Benefits-

- The SWPK-01 kit includes two hinge components, two swing arm components, two BPA pads, four #10 set screws, #10 Allen Wrench, and 4 10-32 SS Pan Head Screws.
- Mount standard panels with no extra holes or modification required
- 100% non-metallic components
- Fits in all sizes, swings from any direction
